### **Innoventor, Inc. Gets \$2.6 Million Contract Extension from Bell Helicopter**

Innoventor, Inc. has received a \$2.6 million contract extension to continue providing engineering design service on the H-1 Helicopter Upgrade and the V-22 program for Bell Helicopter. Innoventor has more than 20 engineers working with Bell since June of 2001 on the Huey upgrade and the Osprey in Patuxent River, MD NAS; Amarillo, TX; Dallas/Fort Worth, TX; and Edwards AFB. The team is responsible for wire harness routing, structural design, flight test support and computer aided modeling.

St. Louis-based Innoventor, Inc. is a family of high-tech companies providing process, design and manufacturing solutions in aerospace, pharmaceutical/medical, food/beverage, industrial automation and power industries.
