### **INNOVENTOR IS ST. LOUIS REGION TECH TOP 50 WINNER**

**St. Louis** - Innoventor has been selected by the Regional Commerce & Growth Association (RCGA) as a St. Louis Region Technology Top 50 company. The awards were presented at an awards dinner St. Louis Science Center.

The divisions were split into biotechnology companies and Advanced Manufacturing. There were 9 companies in the Top 50 from Advanced Manufacturing. Innoventor was the number 4 company in this division with a revenue growth rate of 142%. The top winner was Engineered Support Systems, Inc.

Tech Top 50 was hosted by the RCGA and Deloitte & Touche. The Tech Top 50 is sponsored by the St. Louis Business Journal, the St. Louis Commerce Magazine, the St. Louis Science Center, KSDK Channel 5, KMOX, Edward Jones, Southwest Bank, and Armstrong Teasdale.

Innoventor is the best at implementing Innovative Engineering Integration at every step from any process, production or product development. The depth and breadth of their team allows them to provide a "Great Experience for their customers. The team of engineers at this high-tech solutions company has over 2,000 combined years of proven expertise in improving processes and developing products for a variety of industries. Innoventor provides its services and creativity throughout the United States holding five patents and with an additional 6 patents pending.
